Test preordered office breakfast at Borough

Run a priced breakfast pickup with a permitted operator near Borough High Street. Match it with a lunch window on similar weekdays and record paid repeats and fulfilment costs.

Borough High Street / Southwark Street

172 dining, café or canteen records within 500 m

565 within 1 km

Opening hours and breakfast service need checking.

500 m straight-line radius · teal dots = selected businesses · orange marker = study anchor · north up. Borough · 172 records.

Why this is worth testing

Within 500 m, 172 registered premises share the dining/café/canteen class, among 389 across the five mapped groups. At 1 km, 565 are in that class. This register combines three formats.

Alternative

Compare breakfast with lunch pickup. Ask offices for paid group orders and check competing menus, hours and queues at the proposed pickup time.

Still unverified

Registered premises and mapped office features do not establish breakfast service, office attendance or a gap. No shop, buyer commitment or measured margin is verified.

When to proceed or change course

Keep the window only when repeat full-price orders cover its fixed costs at a positive contribution and can be fulfilled on time. If lunch alone clears that test, switch the pilot to lunch.
